Github: <https://github.com/MacParthum>

LinkedIn: <https://www.linkedin.com/in/mac-parthum-3b758782/>

Easy going, level headed and curious. Full-Stack Web Developer that leans toward front end work, and enjoys working in a team environment towards long term web design solutions.

LANGUAGES:

HTML , CSS, JavaScript, Node.js

PROJECTS:

Project 1: Our group created a fun app that flips a coin and generates cooking recipes depending on the result of the coin toss.

Deployed Site: https://macparthum.github.io/Indecisive_Cook/

Project 2: Our group created an app that uses the US Postal Service zip code database and Mapbox to create an app that allows a user to plan a move by comparing and writing reviews on a particular zip code. This app has working maps that show the largest city in the zip code.

Deployed Site: <https://project-2-group-5.herokuapp.com/login>
